PROFILE SUMMARY

Business Analyst / Project Manager / Product Owner with 5+ years of experience across business development, business analysis, and end-to-end project delivery in Agile (Scrum, Kanban) and Waterfall environments. Skilled in requirement gathering, stakeholder management, backlog and sprint management, BRD/FRD preparation, wireframing, and UAT, across ecommerce, transportation, ERP integration, fintech, and construction-tech domains. Hands-on experience with UI/UX design, product roadmap input, and cross-functional coordination between business, design, and engineering teams. Seeking a long-term Business Analyst, Project Manager, or Product Owner role to drive product delivery and measurable business impact.

CORE SKILLS

- Requirement Gathering & Elicitation, BRD & FRD Preparation, Gap Analysis, As-Is/To-Be Process Mapping
- Agile/Scrum & Waterfall, Sprint Planning, Backlog Grooming & Prioritization (MoSCoW, RICE), Scrum Master
- Product Backlog Management, Product Roadmap Input, User Story Writing, Epics, Use Cases, User Flow Diagrams
- Project Planning, Milestone & Resource Planning, Risk Management (RAID), Budget & P&L Analysis, RACI Matrix
- Stakeholder Management, Client Onboarding, Requirement Walkthroughs, UAT, Change Management, Status Reporting
- UI/UX Design & Prototyping, Wireframing, Cross-Functional Collaboration, Vendor Management, SEO Fundamentals

TOOLS & TECHNOLOGY

- Project Management: JIRA, monday.com, Linear, Confluence
- Design & Prototyping: Figma, Adobe XD, Illustrator, Photoshop
- CRM: HubSpot, Zoho CRM
- Version Control: GitHub
- AI Tools: VS Code with Claude, Claude Design, Google Stitch, Gemini, OpenAI tools

PROFESSIONAL EXPERIENCE

Business Analyst / Project Manager | Sep 2022 – June 2026

Pyramidion Solutions | Chennai (Remote)

- Led end-to-end project delivery using Agile/Scrum and Kanban, driving sprint planning and backlog prioritization (MoSCoW) as Business Analyst and Scrum Master.
- Gathered requirements through client interviews and questionnaires, producing BRDs, FRDs, user stories, epics, use cases, and user flow diagrams.
- Collaborated with development teams on effort estimation, milestone planning, and requirement traceability, tracked in JIRA.
- Delivered wireframes and UI/UX designs to support design and development teams, ensuring intuitive, user-friendly interfaces.
- Conducted stakeholder onboarding sessions, facilitated requirement walkthroughs, and led UAT to validate business requirements before deployment.
- Managed 4+ concurrent client projects across web, mobile, ERP integration, and digital platforms, ensuring on-time delivery.

Key Projects Managed at Pyramidion Solutions

DSL Connect (UK): Enterprise Retailer Ecommerce & ERP Migration

Led a large-scale digital transformation built around Sage 200, extending it with an Admin Panel, customer-facing ecommerce website, and Sales Office mobile app, all integrated via API with Sage 200 as the system of record. Owned the project end-to-end from requirements through delivery.

Y-Ride (USA): American Transportation (Ride-Hailing) Application

Business Analyst on a Lyft-style ride-hailing platform with airport geofencing, insurance integration, and KYC verification, serving 2,000+ drivers and 4,000+ riders. Translated business requirements into functional solutions and supported the product through launch and production.

Kepler Invest Hub (India&France): M&A Platform Connecting Investors, Buyers & Businesses

Led requirements gathering, scope definition, wireframing, stakeholder coordination, and delivery management. Currently in beta testing in production.

Graftlink (Ireland): Construction Ecosystem & Workforce Management Platform

Multi-persona platform for businesses, suppliers, workers, and course providers spanning project management, recruitment, job marketplaces, and course commerce. Led requirements gathering, solution scoping, wireframing, and stakeholder coordination through successful delivery.

Spayci (India): AI-Powered Interior Design & Renovation Platform

A 3D interior design and renovation platform allowing users to visualize rooms and explore purchasable furniture in virtual space. Features AI-driven design recommendations, 3D room visualization, renovation planning tools, and ecommerce integration via MedusaJS. Managed end-to-end from requirement analysis to delivery.

Additional Projects: MetaPyra (Indian virtual office/workspace platform), Army Site Check (Indian Army Civil Construction Management Application), Gifts and Fests (Indian Event Management Application), ScalpBox (USA crypto futures/spot trading platform, full project lifecycle ownership), and white-label MVPs including Qrooze (USA) and Allo Cabs (Sri Lanka) cab-transport apps, Bodyguard My Ride (South Africa), and Bharat Franchise (WordPress franchise directory).

Senior Business Development Executive | Jan 2022 – Sep 2022

Fire Bee Techno Services | Madurai (Onsite)

- First salesperson for a seed-stage startup; built the sales function from the ground up and shaped sales strategy.
- Led inbound and outbound sales teams focused on international markets; engaged leads and delivered tailored proposals.
- Ran product demonstrations and advised clients on complex project flows; developed and executed monthly sales plans and invoicing.
- Onboarded and managed 15+ blockchain projects end-to-end through delivery; supported the SEO team with product knowledge.
- Coordinated across clients, designers, developers, QA engineers, SEO specialists, content writers, and third-party vendors.

Business Development Executive | Oct 2020 – Dec 2021

Pixel Web Solutions | Madurai (Onsite)

- Managed inbound and outbound sales activities; presented products and ran live demos for international clients.
- Handled projects start to finish, including pre- and post-sales support, and prepared detailed scope documentation for internal blockchain products.
- Maintained a strong sales pipeline and onboarded 3+ blockchain projects, managing each through to delivery.
